THE APPEAL FOR 1876.

The Memphis APPRAL has just entered on the thirty-sixth year of its existence, and great as has been its popularity, and brilliant as has been its record in the past, the proprietors enter upon the Centennial year with a determination to make it a great representative journal of the southwest, Notwithstanding the hard times, the circulation of the APPEAL is larger than at any previous period of its long career, and N. G. S. R. R., 688; ste mers north, we design enlarging our field of usefulness during the present year by making the paper still more worthy of the liberal

patronage it has heretofore received. A newspaper during the present year will be more than ever instructive and indispensable to the public. Momentous questions are to be discussed; it will be a year of sgitation and extraordinary events. We will have elections, local and national, for State legislatures and governors, for a new congress, and a new President. Important events will be of daily occurrence. Stirring issues are shaping for the political contest, State and national. The APPEAL will be found abreast of all progress, fully up to the times. With no offense to Conservatives, Liberal Republicans, or any faction opposed to the corruptions of Grantism and Radicalism, the APPEAL will from day to day preach the gospel of Democratic truth, 3:05, firm. and insist on a clean Democratic organisation. The political drift is leading the public to understand that every man must decide which cause he will serve, and the current indicates most plainly that there will be but two parties in future elections -- the one Democratic, the other Republican. There is no alternative but to choose between them. The APPEAL, true to its normal position and re-enlists under the Democratic banner. The Democratic party is a national party, and it should have but one and the same name throughout the Union. There is no coherence or nationality in a party that assumes different names in different localities. In the northern States the enemies to the corruptions of Radicalism, call themselves Democrats; in Virginia, Conservatives; in Tennessee, Damocrats and Conservatives; in other States, Democrats and Liberal-Republicans. When a party thus assumes different names, it becomes a jarring faction, made up of odds and ends, without homogeneity or nationality. Entertaining these views, we shall discard all appendages to the name of Democrat and ally ourselves with the National Democracy. Already its banner floats triumphantly in the breeze. National Democrats demand an immediate cessation of the brutal military tyranny over the south; that the iron heel of the despot be lifted from the necks of a prostrate people, upon whom it trampled in the wantonness of power and in the malevolence of revenge. With the triumph of Democracy in November next, Exp's to Contin't 50.828 45,421 800.845 800.945 825,481 we may once more hope for the revival of the good old times, when the people of this Union were

FINANCE AND TRADE.

MONEY MATTERS are very dull. There is no spring, no rush shead to seize on delicate thermometer, indicate the state of feeling and the turn of events. It is the reporter's misfortune that events, just now, have no turn. They are as the state of feeling and the turn of events. It is the reporter's misfortune that events, just now, have no turn. They are as straight as a road over a sandy plain, and as free from incident. Plenty of money for all business purposes, in some instances more than it is desired should remain on hand, and very little call for THE GENERAL MABKET was spiritless it tells the nature of the situation. Plenty of means to do businers with, but no opportunity to make them available Exchange is in reduced off-ring, but as the call for it is slow, no inconvenience results. This small demand for exchange is another indication of the spiritless position of tusine s affairs. Rates of exchange are firm at a discount buy-ing on New York, on New Orleans a dis-count; cheming on both at par. Gold was stendy all morning in New York at 113, hare the brokers offered 112 and sold at 113. The only occurrence in the scrip or bond market was the sale of \$1400 Memphis gas company's stock at 95, and \$10 000 at private, how much lower than 95 had rendered privacy necessary was matter only for surmise.

The preferred of the receipts before the hour of change—then, when change opens the buyers will be already full, and open the buyers will be already full, and open the buyers will be already full and open the buyers will be already full and t only the leavings of the morning's sales will be put on the tables of the board of trade. Under such able and enthusiastic support as this way of doing things indicates, results are not likely to be as successful as when 'change is made the rule, and outside operations the exception. The board of trade discussed these tion. The board of trade discussed these matters; we shall notice with interest what follows the effort making to constitute 'change the great focus of the provision market. Corn, in the absence of arrivals, was in small offerings; 41c was asked, but we heard of no transactions. Oats were quiet outside of retail operations; the lest sales of ordinary mixed were at 43c, of mixed black 48c, of white 48c. Bran-

nothing offered, and apparently no pressing want of any; the lest sale was fortune, and the banks, like the most at \$13.75. Hay is stagnant for the comthe Miltonic line, "beneath the deep there is a lower deep," for russets were offered as low as a dollar a barrel! A

car-load of Ohio peachblews sold at yesterday; the absence of any river arrival of produce gave no opportunity for activity even had the demand existed. Eggs were plentiful and irregular; the prevalent figure was 13c; sales were made at 14c, and some lots-including one of 600 dozen-changed hands at 12: Chickens were not very lively, hers selling at \$4 75, and mixed coops at \$3 50@ 4 50 for medium to good. Ducks were few, with some inquiry; sales \$5 Geese were very scarce, with a little demand, and some of fair quality sold at \$7 50. Turkeys, according to size, brought \$15@ 18; dressed, 10@15c, according to cond: tion, the warm weather being unfavorathe for them. Cabbage, new from Louisians, sold at 12@14c. Sweet potatoes are toleratly brisk, and sell by the barrel, from store, at \$2 50. Coffee is reported by the Baltimore Gazette to be in better inquiry, the tone of the market better, but no improvement in prices. Provisions, the Cincinnati Enquirer, of Thursday, reports, are "strong and buoyant, with considerable speculative demand, but holders ask higher prices, and are indifferent about selling, which restricts

trade." The Chicago Tribune, of Wednes-Otleans was firm and steady; Liverpool dsy, reports hog products "in good demand, and stronger on the speculative inquiry in our market, but sales were articles, though hogs were in larger supchecked by the askings, holders being firm at quotations. Spinners and exporters were almost equal in their supply of hogs during the remainder of takings, while export is showed some February, as packers have closed at sevd sposition to invest at the present low eral other points, and there are, there-price.
